Key Statistics & Data

KEY STATISTICS & DATA

Increasing risks due to climate-driven wildfires and a lack of adequate insurance rates have resulted in fewer coverage options available to consumers in the voluntary market. As more insurers have declined to provide new coverage or renew existing policies, more Californians have turned to the FAIR Plan for the basic property coverage they need.

The FAIR Plan updates the following information on a quarterly basis, unless indicated otherwise. Statistics and data represent the latest available information through March 2025.

THE FAIR PLAN FACES INCREASED EXPOSURE

As of March 2025, the FAIR Plan's total exposure is \$599 billion, reflecting a 31% increase since September 2024 (prior fiscal year-end) and a 259% increase since September 2021 (Fiscal Year End 2021).

TOTAL DWELLING & COMMERCIAL POLICIES IN FORCE (PIF) HAVE INCREASED

As of March 2025, the FAIR Plan's total PIF is 573,739 reflecting a 23% increase since September 2024 (prior fiscal year-end) and a 139% increase since September 2021 (Fiscal Year End 2021).
